ENERGY STAR® MOST EFFICIENT 2017

Gentek is pleased to announce that Regency and Regency 400 Series windows have been selected as ENERGY STAR Most Efficient 2017 for meeting rigorous ENERGY STAR performance criteria.

1. Must have an Energy Rating (ER) of 36 (unitless) or higher, **OR**
2. Must have a U-factor of 1.14 W/m²·K (0.20 Btu/h·ft.²·°F) or lower and have an ER of 26 (unitless) or higher

Most Efficient
2017

BOTH BRANDS – EVERY STYLE!

All Regency and Regency 400 Series windows built with EnergyPlus™ glass are included in the ENERGY STAR Most Efficient designation. The thermally optimized construction incorporates fusion-welded masterframe and sash corners, dual-pane insulated glass technology, multi-layer weatherstripping and integrated insulating components for weathertight protection against energy loss.

ULTRA ENERGY-EFFICIENT ENERGYPLUS GLASS

- Precision-engineered for challenging northern climates
- Double-glazed insulated glass unit with Low-E, argon gas and Super Spacer® structural foam spacer
- Triple glazing and solar control options available
