

ALIGN[®]

COMPOSITE CLADDING

STRIKING AESTHETICS WITH INSTALLATION EASE FOR A SUPERIOR OVERALL VALUE

REALISTIC WOOD TEXTURE WITH HEIGHTENED **STRUCTURAL STRENGTH**

ALIGN COMPOSITE CLADDING HAS ARRIVED – AND THERE’S NOTHING ELSE LIKE IT

The architectural beauty of real wood, but with easier installation and better overall value. ALIGN Composite Cladding delivers the high-end aesthetics customers want and the lower total installed cost businesses need.

- Available in a tall 7" Plank and extra-wide 12" Board & Batten for greater design options
- ALIGN trim accessories further elevate the look
- Strong yet lightweight construction ensures a high-performing home exterior
- Self-aligning stack lock provides a quicker and easier installation than fibre cement and engineered wood
- Requires fewer labourers – a single installer can get the job done!
- No sealing, touching up or caulking needed

You'll appreciate the time and cost savings of this trade-friendly cladding. When it comes to choosing one of the best products for your next project, you can depend on ALIGN for quality and ease like no other.

ALIGN OFFERS ONE OF THE LOWEST TOTAL COST OF CLADDING WITHOUT SACRIFICING CURB APPEAL – **WHICH MAY RESULT IN HIGHER PROFITABILITY FOR YOUR BUSINESS.**

EXCLUSIVE (GP)² TECHNOLOGY[®] FOR SUPERIOR PERFORMANCE

As the world's first composite cladding incorporating **G**lass-reinforced **P**olymer and **G**raphite-infused **P**olystyrene (GP)² Technology, ALIGN is in a class of its own.

Precision-engineered for superb form and functionality, ALIGN meets or exceeds industry test standards and criteria[†] for windload, workability, flame spread/smoke development and weatherability.

Take a closer look at the (GP)² Technology design ingenuity:

- Glass fibres in the compound increase structural integrity, strength and heat resistance
- Graphite-infused polystyrene increases energy efficiency^{††} and reduces thermal bridging; helps achieve an overall R-value of up to 2.0 when applied directly over sheathing
- Non-moisture absorbing materials prevent rotting, warping, shrinking and swelling
- Impact modifiers increase resistance to dents, dings and abrasions
- Titanium dioxide helps prevent ultraviolet degradation
- Integral weatherable pigments fortify the colours against fading, including darker hues

Superior Windload Resistance

ORGANIC WOOD BEAUTY

Impressive style and realistic texture of freshly painted wood, striking curb appeal, carefree upkeep and a curated palette of 20 fade-resistant colours.

Thermal Benefits and Impact Resistance

QUICK AND EASY INSTALLATION

No sealing, touching up, joint flashing or caulking are required – which may result in higher profitability for your business.

ALIGN COMPOSITE CLADDING

TAKING THE LEAD IN **FUTURE-FORWARD BUILDING MATERIALS**

		FIBRE CEMENT/ ENGINEERED WOOD	VINYL SIDING	ALIGN [®]
ARCHITECTURAL APPEAL	Authentic woodgrain beauty	●		●
	Tall profile/exposure	●		●
	Flat face (7" Plank)	●		●
	Wide face (12" Board & Batten)	●		●
QUALITY AND PERFORMANCE	Structural strength and solid feel against the wall	●		●
	Compatible with high-end trim options	●		●
	Moisture-resistant (won't swell)		●	●
	Resists high winds with unexposed fasteners		●	●
	Carefree upkeep		●	●
	Lifetime limited warranty*		●	●
USER-FRIENDLY INSTALLATION	Easy to handle		●	●
	Simple installation (self-aligning, one-person hang)		●	●
	No sealing, touching up, joint flashing or caulking		●	●
	No specialized skills required (less risk of installation errors)		●	●
	Enhanced safety (no respirators or special tools needed)		●	●

REINFORCED NAIL HEM
delivers extra-strong wall attachment and increased windload resistance.

FORGIVING HANG
helps conceal uneven surfaces and minor wall imperfections.

SELF-ALIGNING STACK LOCK
provides consistent and easy installation.

(GP)² TECHNOLOGY[®]
ensures lower expansion and greater structural integrity.

INTEGRATED INSULATION
provides an added layer of weather protection.

7" FLAT FACE PROFILE WITH CEDAR MILL GRAIN TEXTURE
recreates the organic beauty of natural wood.

ON-TREND COLOUR PALETTE
features 20 fade-resistant, low-gloss colours for extensive design options.

COMPATIBLE 3/4" PANEL PROJECTION
works beautifully with both standard and architectural trim accents.

DEFINED BUTT EDGE
replicates the look of wood, with added dimension and a crisp shadow line.

12" BOARD & BATTEN

ALIGN 12" Board & Batten installs beautifully as an architectural accent or whole-house exterior.

- Saves time – integral batten strip saves time vs. fibre cement or engineered wood battens that must be individually fastened, filled in and touched up
- Available in cedar mill grain or matte texture to complement a variety of exterior designs

Cedar Mill Grain Texture

Matte Texture

ACCESSORIES

ALIGN H-trim, corner posts, trim and other accessories make it easy to achieve a flawless finish.

COLOUR DEFINES THE DESIGN

Nothing does more to impact a home's exterior design than colour. From deep saturated hues in cool neutrals to bold shades and light-changing grays, Gentek has everything you need to let your vision unfold.

SERVING THE PROFESSIONAL CONTRACTOR

At Gentek, we appreciate the often-challenging demands facing the building products professional, and we do our very best to serve your needs. Our vast resources help us to ensure that consistent quality, reliable delivery and market-sharp product lines – along with powerful warranties, effective sales support and proven business insight – are of the highest caliber. As a true building products partner, we are dedicated to making your projects easier, more efficient and more rewarding.
