HIGH-PERFORMANCE ALUMINUM FLATSTOCK

IMPECCABLE STYLE WITH CAREFREE UPKEEP

There's nothing like a crisp, pristine finish to draw attention to the trim areas and architectural details of a home. And one of the best ways to achieve striking results is to use a flatstock of exceptional quality – one that combines superb forming properties with a luxurious and protective finish. Performance G8 Flatstock makes it easy to add personality and curb appeal to your home.

SEE THE DIFFERENCE!

Performance G8's flexibility, formability and highly durable topcoat ensure a superb installation and long-lasting beauty. As shown below, a nickel rubbed across the surface of Poly and PVC finish coil easily leaves marks, while mar-resistant Performance G8 continues to look great!

THE PERFORMANCE G8 QUALITY DISTINCTION

UV Protection Prolonged exposure to ultraviolet rays can cause irregular colouring. Performance G8's specially formulated finish coat delivers the needed protection, in addition to improved gloss retention, resistance to chalking and fading, and a beautifully consistent appearance.

Stain Resistance The stain inhibitors in Performance G8's finish coat resist damage and stains from trees, dirt, oils, salt spray and other harsh environmental elements. Built with easy upkeep in mind, Performance G8 can be cleaned with plain water to remove most airborne dust and dirt, keeping your home fresh-looking and clean.

Peace of Mind Performance G8 is backed by a 30-Year Limited Warranty, further assurance of superior quality and value. See printed warranty for details.†

A MORE SUSTAINABLE CHOICE

Aluminum's easy and infinite recyclability helps make it a more sustainable building material. The aluminum used in Gentek's flatstock contains >90% pre/post-consumer recycled content and is 100% recyclable.††
