

ALIGN[®]

COMPOSITE CLADDING

12" BOARD & BATTEN

NEW!

HIGH-END STYLE WITH INSTALLATION EASE!

 **GENTEK[®]**

ALIGN[®] 12" BOARD & BATTEN

COMPOSITE CLADDING

ALIGN 12" Board & Batten expertly merges the timeless appeal of handcrafted siding with the modern convenience and installation ease of high-performance composite cladding. Featuring a 10" board and 2" batten, this innovative vertical profile adds depth and visual appeal whether used as an architectural accent or whole-house exterior.

EASIER INSTALLATION AND BETTER OVERALL VALUE

Saves Time Integral batten strip saves time vs. fibre cement or engineered wood battens that must be individually fastened, filled in and touched up.

Easy to Handle No large, heavy panels; lighter weight than fibre cement and engineered wood.

Saves Money Lower total installed cost; may save 10% or more with less installation time and fewer labourers needed.

Installation Ease Does not require special skills, special tools, respirators, joint flashing, sealing, caulking or touching up.

Innovative (GP)² Technology[®] Resists harsh winds, impact damage from dents and dings, moisture absorption and ultra-violet degradation.

Versatile Design Options Use as an accent or primary exterior; woodgrain and matte textures complement a variety of products and styles.

Forgiving Hang Helps conceal uneven surfaces and minor wall imperfections.

QUICK SPECS:

12" profile width with a 3/4" panel projection; available in two textures

20 on-trend, fade-resistant colours

Compatible with standard and architectural trim options

Integrated insulation for overall R-value of 1.6*

Virtually maintenance-free – never needs to be painted
